### Why working with SSI Schaefer?

Pleasant work environment with global exposure

Various projects and great possibilities for career development - Our company group is for years the world leading provider of intralogistics. The SSI SCHÄFER group stands for the highest quality level in the logistics sector, which is why we continue to optimise our technologies on an ongoing basis. More than 700 employees (of more than 8000 worldwide) specialized in software and approximately 1,400 installed systems stand fully behind the progress of our company group; at over 50 sites and in 16 company-owned production sites around the world.

Collaborating with our dedicated professionals worldwide - Throughout all of our projects, we are focussing on the overall solution. Communication and cooperation with local and worldwide teams are of crucial importance. Professional and personal growth - For the challenges of the future, we are always looking for permanent, committed employees who want more than just a job.

The continuous striving for technical and personal development, the motivation to work with professionalism and self-reliance in relation to the customer, as well as the satisfaction of respectful and team-oriented interaction with colleagues form the basis for a successful future.
